

COMMERCIAL OFFICE DESIGN - BUILD

Mountain Spring Medical
Client: Drs. Perrone and Chalfont
Services: Site Planning, Building Design,
Construction
Project Cost: \$400,000

The CHALLENGE:

- A medical group in need of new office space for a growing practice.
- Design and build a medical office to establish a standard for a new commercial development.

The SOLUTION:

- Architectural design of a 4,100 square feet medical office with six patient exam rooms, two procedure rooms, a lab, conference room, kitchen, three doctor offices, mechanical room and restroom.
- Site plan including twenty-nine parking spaces and disabled parking for patients and employees, sidewalks, dumpster enclosure and landscaping.
- The completed project provides an attractive, functional facility that serves the clients needs and provides a fully accessible location for patients and staff.
